1957 Iris Introductions

After twenty-five years of growing irises I am offering my first introductions. Dean of the iris growers in this area — as stated in Bulletin No.108, page 117, of the American Iris Society — "Pioneer iris grower Mrs. Walter Schmelzer started the vogue for better irises in the Walla Walla area more than fifteen years ago, and her enthusiasm rapidly spread to others." Also, for many years I have been known as the most severe critic of all with the new iris introductions. It is with all of my former love for true beauty and with much thought about unnecessary duplications in the iris kingdom that I offer the following irises, MY FIRST INTRODUCTIONS. These are not only distinctive but are very beautiful, desirable varieties that you will be proud to show your friends.

DREAM MAGIC — Bright rose-pink self with extra wide segments in a 6½ X 6 in. flower. The standards are frilled and have one-half inch of lace and are perfectly held. The falls flare widely and are so very ruffled and frilled that they swirl showing the under side of the wide, lacy edged flounce which is a light cocoa shade, adding a distinctive touch that is most appealing. There is no other iris on the market in this clear, bright rose-pink shade. Fragrant, 42 in. tall and very well branched. _____ \$35.00

(This is in very short supply and will be sold out early.)

PARTY TIME — The very wide, frilled standards of glistening pale amber have an inch of lace that does not pinch but opens perfectly, the huge style arms are very frilly. An elusive touch of 'Mary Randall' pink gives an effect of art shadings over the entire standards. The extra wide falls resemble a little white apron with a wide ruffle of bright yellow entirely around it, deepening at the haft to brown about an inch wide. The lacy lower portion of the falls lay in rhythmical fluting. Medium large, perfect in form — a finished work of art! 32 in. tall and well branched. _____ \$25.00

PRECIOUS CARGO — An absolutely huge pastel in a gleaming, pearly pink self. As this is a Mary Randall seedling, as is Party Time, it is in that shade of pink, though in pastel. Its huge standards are closely held and the falls flare well out to show the light ruffling to perfection. In spite of its huge size and leather-like substance this gives the daintiest effect imaginable. Rather late in its blooming habits. 36 in. tall. _____ \$10.00

Hemerocallis

1957 Introductions

GADABOUT — Startling in its size and beauty is this pure, clean, bright yellow, ten and one-half inch flower. While this belongs to the spider family its petals are wider, up to two inches in width, and holds its tremendous size perfectly in the hottest weather. Strong grower, 36 inches tall with stout stems. \$15.00

FAIRY FRILLS — Very pale greenish-cream in a ruffled and fluted form. Medium large, just right size to make the fluffiest and frilliest clump imaginable. This had been the 'pet' of my seedlings by all the daylily fanciers since it first bloomed. Opens evenings, very daintly fragrant, 36 in. tall. \$10.00

NIKE — A rich deep shade of yellow, about the color of Cibola but with an entirely different mien. Its wide open form is unusual — truly looks like it could fly! While the petals are good width the sepals are narrow and when established twist giving an attractive and airborne appearance. Reblooms, is 38 in. tall. \$3.50
(As NIKE is in good supply you may use it on your \$3.50 Collection Special)

1956 Introductions

STARLA (Tallman) A prodigious flower with glistening allure. The very large fully rounded, slightly ruffled petals gleam as the reflected light of a star, palest green-white. A broad white midrib enhances the white effect. Rather late blooming season. Dormant and 42 inches tall. \$15.00

WHEATLAND (Schmelzer) Distinct—a hemerocallis you will remember. Soft apricot-fawn with very prominent dark rose veining in a beautifully formed, replete flower. Reminiscent of ripening wheat in our fertile valley. 38 in. \$15.00

ORDER EARLY to avoid possibility of certain varieties being sold out.

TERMS. Cash with order, check, draft or money order. 50% of sale will hold order until digging time when it can be shipped C.O.D. if you desire.

POSTAGE is paid on all orders. No orders under \$5.00 please; this \$5.00 must be either Iris or Hemerocallis—NOT to be both. We make no substitutions of varieties, unless second choice is given, and if stock is sold out refund will be made.

WE GUARANTEE good, healthy stock, true to name, and that it reaches you in good condition, but we cannot guarantee the growth in your garden. Any error on our part will be carefully corrected, for our success depends on your being satisfied.
